Business Report

(For the Period of April 1, 2015 through March 31, 2016)

1. Analysis of Operating Results and Financial Position

(1) Analysis of Operating Results

(i) Progress and Results of Business

In this fiscal year (from April 1, 2015 to March 31, 2016), the Japanese economy saw firm capital investment, such as from the implementation of investment plans formulated when corporate earnings were strong. However, the real economic growth rate in the third quarter of the fiscal year (October–December 2015) turned negative for the first time in two quarters given stagnant consumer spending due to weak wage growth and the impact of the warm winter. Still, despite sluggish production in light of slowing overseas demand, factors such as inbound consumption by overseas visitors to Japan continued to support the Japanese economy.

In such an environment, the Japan Asia Group (“the Group”) worked as one towards building a sustainable society through the creation of green communities, guided by its mission statement, “Save the Earth, Make Communities Green.” Further, the Group put even more emphasis on profitability and growth, promoting structural reforms, human resources, and technological development.

Regarding the Group’s performance this fiscal year, the technical divisions of the geospatial information consulting business and the green energy business performed well. However, sales in the financial service business declined sharply due to fluctuations in market conditions.

As a result, consolidated sales were down 0.5% year-on-year from ¥75,903 million in the previous fiscal year to ¥75,524 million, operating income was ¥3,887 million (from ¥5,352 million), and ordinary income was ¥2,563 million (from ¥3,737 million). Profit attributable to owners of the parent was ¥411 million (down from ¥3,739 million) due to a provision for contingent loss at a subsidiary of ¥1,360 million treated as extraordinary losses.

Operating performance at each business segment is as follows. Note that the reportable business classification was revised from this fiscal year. Analysis of operating results for this fiscal year and year-on-year comparisons are based on the new classification.

Business segment	Net Sales	Business Income
Geospatial information consulting business	42,681 millions Yen	1,746 millions Yen
Green energy business	25,007 millions Yen	1,856 millions Yen
Financial service business	7,795 millions Yen	551 millions Yen

a. Geospatial information consulting business

This business’s core company, Kokusai Kogyo Co., Ltd., restructured its organization in order to reinforce its technological, marketing, and new business development capabilities. In addition, it redefined its business areas to green energy, disaster and environmental management, infrastructure, and geospatial information services, and aims to expand operations in each of these areas.

In this business, while the government’s initial budget for public works spending in fiscal 2015 projected only a modest increase from the previous year, the Group actively responded to projects to create communities, people, and jobs, and measures to prevent and reduce the impact of natural disasters, and prevent infrastructure deterioration, promoting the cultivation of business with prefectural and municipal government customers. The Group also worked to strengthen its manufacturing base, by encouraging more sharing of order and production line

information, smoothing fluctuations in work volume by bringing forward production, and other measures. In addition, the Group worked to win private-sector customers through a merger and collaboration with Kokusai Environment Solutions Co., Ltd., whose customer base is mainly large manufacturing companies.

As a result, orders and sales were firm, with orders received by the geospatial information consulting business totaling ¥42,146 million, up 2.0% year-on-year (from ¥41,320 million in the previous fiscal year), and net sales at ¥42,681 million, up 1.6% year-on-year (from ¥41,989 million in the previous fiscal year). Business income was ¥1,746 million, up by ¥365 million (from ¥1,381 million in the previous fiscal year).

b. Green energy business

JAG Energy Co., Ltd., which has operated a green energy business, and Kokusai Land & Development Co., Ltd., which operates a green property business, merged on July 1, 2015 and combined their businesses to become the new green energy business from this fiscal year. Additionally, the Group had already been focusing on the concept of energy saving, generation, and storage in the real estate and detached housing businesses, but using the merger of these two core companies and the integration of their businesses into this new business, it plans to step up its efforts in this area.

This business focuses on the power generation business, which sells electricity from the Group's solar power plants using the feed-in tariff system, and the consignment business, which plans, develops, and operates solar power plants, to provide real estate leasing, asset management, property management, project management, and real estate solutions, mainly through JAG Energy Co., Ltd., a core company of this business. In addition, KHC Ltd. is engaged in the detached housing business.

In the power generation business, the following solar power plants brought online during this fiscal year contributed to business income: Tamano-shi, Okayama Prefecture (4.0MW), Nakatado-gun, Mannou-cho, Kagawa Prefecture (2.0MW), Ushiku-shi, Ibaraki Prefecture (0.3MW), Sapporo-shi, Hokkaido Prefecture (0.95MW), Nagahama-shi, Shiga Prefecture (0.83MW), Takikawa-shi, Hokkaido Prefecture (0.61MW), and Karatsu-shi, Saga Prefecture (0.31MW). The Group is also working towards the construction of new solar power plants. It now has brought online more than 49 solar power plants for a combined output capacity of over 74MW. Earnings in both the consignment business and the detached housing business were strong, with the number of projects delivered in line with plan.

As a result, orders received by the green energy business totaled ¥17,931 million, down 26.7% year-on-year (from ¥24,456 million in the previous fiscal year), partly reflecting a pullback from large orders secured in the previous fiscal year. Net sales were ¥25,007 million, up 8.1% year-on-year (from ¥23,127 million in the previous year), supported by strong sales in the power generation business and solid performance in the consignment business due to the development of solar power plants orders received in the previous fiscal year. Business income was ¥1,856 million, up 10.9% year-on-year from ¥1,674 million in the previous fiscal year.

c. Financial service business

In this business, the Group operates a securities business through two subsidiaries, Japan Asia Securities Co., Ltd. and Okinawa Securities Ltd., and provides investment trust and investment advisory services and other financial services through another subsidiary, Japan Asia Asset Management Co., Ltd.

In this fiscal year under review, the Nikkei Stock Average approached the ¥21,000 level in July 2015, supported by strong corporate earnings and expectations for government policies. After that, the stock market fluctuated sharply between ¥16,000 and ¥20,000 due to concerns about the outlook for the global economy, which was triggered by a worldwide decline in equities, starting on the Shanghai market in China, and a drop in the crude oil price. This led to a stronger yen, fueling concern about a shortfall in corporate earnings in Japan. Until December 2015, the yen was largely stable against the US dollar, trading at around ¥120. However, the yen subsequently strengthened against the US dollar amid prospects for a moderate pace of interest rate hikes in the US and growing risk-off sentiment among investors due to sharp falls in equities in the US and Japan. By March 2016, the currency was trading at the low ¥111 level.

(Translation)

In this business, the Group worked to strengthen its customer base by expanding assets under management. This included the sale of a new fund product by Japan Asia Securities Co., Ltd. called US M&A Focus Equities Fund, in line with its investment strategy for fiscal 2015. However, amid risk-off sentiment worldwide, income from foreign equities in particular declined, leading to a drop in business income compared with the previous fiscal year. Income also declined at Okinawa Securities Ltd. following moves to expand its offering of foreign equities, in addition to its existing line of offered products such as investment trusts. As a result, sales totaled ¥7,795 million, down 27.5% from ¥10,755 million in the previous fiscal year. Business income was ¥551 million, down 78.9% from ¥2,608 million in the previous fiscal year.

(ii) Capital Investment

During this consolidated fiscal year, we made a capital investment of 7,180 million Yen. The principal targets included the development of solar power plants in the Green energy business.

(iii) Financing

The necessary funds for our operations were raised by borrowings from financial institutions and by the issuance of bonds, etc.

(iv) Other Significant Matters Concerning the Current Status of the Corporate Group

We passed a resolution at the Board of Directors' meeting held on February 12, 2016 to carry out a share exchange with KHC Ltd. effective April 1, 2016.

As a result, it became our wholly owned subsidiary company.

Agendum No. 6 Change to Directors' Remuneration

It has been resolved at the 21st Ordinary General Meeting of the Shareholders, held on January 27, 2009, that the maximum amount of remuneration for Directors is the aggregate of (i) the fixed amount of 300 million yen or less per year, and (ii) the floating amount equivalent to five (5) percent or less of the net profit that belongs to the shareholders of the parent company for the previous fiscal year.

Subject to the approval of Agendum No. 2 "Partial Amendments to the Articles of Incorporation," the number of directors will be increased from seven (7) or less to eleven (11) or less. In order to prepare for the increase of directors to strengthen the management structure and corporate governance of the Company, and since the amount of remuneration for Outside Directors has not been stipulated, it is proposed that the remuneration for Directors be stipulated as the aggregate of (i) the fixed amount of 400 million yen or less per year, and (ii) the floating amount equivalent to five (5) percent or less of the net profit that belongs to the shareholders of the parent company for the previous fiscal year.

The number of Directors is currently seven (7) (including two (2) Outside Directors). If the Agendum No. 3 "Election of Eight (8) Directors" is approved as proposed, such number will be increased to eight (8) (including two (2) Outside Directors).
